7. Read the Terms of Service and Privacy Policy and tap I agree.

8. Tap I'm A Student

# To Join your respective class Subject – please follow the following instructions

You will find the link on the stream post. Please scroll down if you cannot see the link. Some students must have posted comments and the link will be downaat the bottom

Please note the class subject link of your child is unique and is only applicable to your child's class. Do not share the same with other class student or any stranger for security purpose.

After you get the link, just click on it and enter the Class meeting ....click Join **Students are not allowed to click on the present(share screen).** 

Make sure to sign in with the correct account. If you're already signed in and you need to switch accounts, in the top-right corner, click your profile picture select or add your account.

## **Trouble shooting**

1) If a student fails to join please go to settings in the mobile and add the school email in the google account and Sync account from settings of your mobile by clicking on Accounts and Sync in your mobile.

2)If you get a error message that your app has stopped ....free some space and delete some files or uninstall app and make space in your mobile

3) If you still don't succeed on the mobile, reinstall both the apps classroom and meet app

4) If student gets the message as contact administrator it means you are using your personal email .....so you have to try to add the school email ID given to you.

5) Students are not allowed to decline any subject classroom
